Gentlemen:

Subject: Requirements of PL 95-234, Section 224

This letter will confirm that the Department of Regulatory Agencies has jurisdiction over the rates and operations of cable television operators in the State of Hawaii under Chapter 440-G, Hawaii Revised Statutes.

The Department also appears as Consumer Advocate through its Public Utilities Division before the Public Utilities Commission and will participate in all pole attachment hearings on behalf of the consumer.

Very truly yours,

Dear Mr. Talens:

Per our telephone conversation on May 8, 1979, we are transmitting a copy of a letter certifying that the Hawaii Public Utilities Commission regulates the rates, terms and conditions for the use by cable television of space on poles, ducts, conduits and other rights of way owned or controlled by a utility within the State of Hawaii and that in so regulating the above, the State has the authority to consider and does consider the interests of the subscribers of cable television services as well as the interests of the consumers of utility services.

Somehow the attached was not received by the Federal Communications Commission.

We would appreciate your acceptance of our certification and will provide any future information, if necessary.

Sincerely,

Leroy Yuen
Director of Utilities

Attention: Mr. James R. Hobson, Chief

Gentlemen:

Subject: Public Law 95-234 and
cc Docket 78-144

This is to certify that the Hawaii Public Utilities Commission regulates the rates, terms, and conditions for the use by cable television of space on poles, ducts, conduits, and other rights of way owned or controlled by a utility within the State of Hawaii.

This is also to certify that in so regulating the above the State has the authority to consider and does consider the interests of the subscribers of cable television services as well as the interests of the consumers of utility services.

Chapter 440-G, Hawaii Revised Statutes provides the Director of Regulatory Agencies, also the Consumer Advocate, with the authority to regulate cable television companies while Chapter 269, Hawaii Revised Statutes provides the Hawaii Public Utilities Commission with the authority to regulate the utility companies.

The Department of Regulatory Agencies as the Consumer Advocate has participated in all pole attachment matters before the Commission. The Department in the attached letter dated February 23, 1979 to this Commission has stated that it will continue to do so. The Department by having participated and by continuing to participate in all such matters has been and will be providing a complete record before this Commission on the interest of both the consumers of cable television and utility services and upon which the Commission can consider the interests of all concerned.

Very truly yours,

Albert Tom

Washington, D.C. 20554

Attention: Mr. James R. Hobson, Chief

Gentlemen:

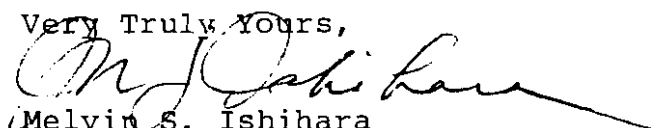

Subject: Public Law 95-234

This is to certify that the Hawaii Public Utilities Commission exercises regulatory jurisdiction on the attachment of cable television systems' cables to the poles, ducts, conduits or rights-of-way of privately owned utilities, such as Hawaiian Telephone Company, a subsidiary of General Telephone and Electronics.

Overall regulatory jurisdiction on the rates and services for cable television systems are administered by the CATV Division, Department of Regulatory Agencies, State of Hawaii. However, the Public Utilities Commission is the agency that approves the rates, charges, terms and conditions for CATV systems to attach their cables to the facilities of the telephone utility. We are attaching the most recent decision of this Commission concerning the attachment of CATV cables to the facilities of Hawaiian Telephone Company in Docket No. 2437.

We hope that this certification notice meets with the requirements mandated under Public Law 95-234. If further clarification or requirements are necessary to comply with the statute, please do not hesitate to contact this agency.

Very Truly Yours,

Melvin S. Ishihara
Administrative Director
